

*June 29, 2009*

*Dear Stuart*

*I have a 2005 1.2 litre Skoda Fabia which has driven over 54,000 miles, it was doing an average of 47 mpg.*

*After fitting a Microlon petrol kit I am delighted to inform you that I am now averaging over 58 mpg and on one trip recently of 200 miles I achieved over 62 mpg!*

*I am utterly delighted with Microlon and will recommend it to all my friends.*

*Thanks*

*W. Jones  
Newbury*
